PROJECTS

- **BE Project:**

Project Title: : Image Audio and Video Steganography.

Technologies Used: Java, C++.

Role and Responsibilities: Worked on developing the core part and designing the GUI.

Description: Steganography is the art of hiding the fact that communication is taking place, by hiding information in other information. Multimedia carrier file formats are used. For hiding secret information in images, audio and video files there exists a large variety of steganographic techniques some are more complex than others and all of them have respective strong and weak points. Here we used the RSA, DES and 3DES as an encryption and decryption algorithm, and LSB method for hiding the data in to the cover file.

- **Third Year Project:**

Project Title : Scientific Calculator.

Technologies Used: Java.

Roles and Responsibilities: User Interface, UML Diagrams.

Description: This software application is a scientific calculator project useful for us to learn basic java concepts. Using this scientific calculator project we can perform addition, subtraction, division, multiplication, square root, other scientific operations also.

- **Working on Tours and Travel Billing Application:**

Technologies used : Java

Role and Responsibilities: Worked on Developing entire project and designing the GUI.

Description: I am developing this application specially for generating the invoice copy of billing for Tours and Travel Agencies. I used core Java and Ms-Access as a database.

- **Facebook Business Page Statistics:**

Technologies used : JavaScripts, Html, CSS, Bootstrap, D3.js Chart Library.

Role and Responsibilities: Worked on developing the entire project and designing the GUI.

Description: Created a web application that takes a facebook business page as input and displays the following:

1. Number of likes the company has.
2. A graph of the number of posts made by the facebook page vs time in months. I.E. Y axis has number of posts, x axis has the last 12 months.
3. The top 5 posts from the last 3 months that got the highest likes.
